

The Calvert Principles for Responsible Investment

We believe that most corporations deliver benefits to society, through their products and services, creation of jobs, payment of taxes, and the sum of their behaviors. As a responsible investor, Calvert Research and Management seeks to invest in companies and other issuers that provide positive leadership in the areas of their business operations and overall activities that are material to improving long-term shareholder value and societal outcomes.

Calvert seeks to invest in companies and other issuers that balance the needs of financial and nonfinancial stakeholders and demonstrate a commitment to the global commons as well as to the rights of individuals and communities.

The Calvert Principles for Responsible Investment (Calvert Principles) provide a framework for Calvert's evaluation of investments and guide Calvert's stewardship on behalf of clients through active engagement with companies and other issuers. The Calvert Principles seek to identify companies and other issuers that operate in a manner that is consistent with or promote:
